

# Analytical Project Leader (Small Molecules) (m/f/d)

Temporär    Jobregion: Basel    Stellenprozent: 100%

## Beschreibung

As a first-tier supplier to our renowned business partner F. Hoffmann-La Roche Ltd. in Basel, we are currently looking for a motivated and dedicated **Analytical Project Leader** for a temporary assignment of 12 months.

The Analytical Research & Development department is a key part of Synthetic Molecules Technical Development. It is globally responsible for advancing analytical methodologies, performing in-depth analyses of active pharmaceutical ingredients, and diverse dosage forms, as well as preparing detailed regulatory documentation for submission to health authorities.

## Tasks & Responsibilities

- Developing a phase-appropriate control strategy for drug substances and drug products.
- Collaborating effectively with stakeholders across various departments.
- Coordinating comprehensive analytical activities, which involves generating physical and chemical data for materials, developing/improving and validating analytical test methods or other analytical controls and ensuring thorough documentation, timely delivery and adherence to quality standards
- Coaching technicians and junior scientists on project work and serving as a central point of contact for project-related formation
- Conduct work in compliance with cGMP where applicable, safety, and regulatory requirements.
- Supervise internal laboratory activities and / or testing activities at CLOs/CDMOs
- Plan and document experiments/results independently and prepare for regulatory submissions such as IND and NDA

## Must Haves

- A Master's or Ph.D. in chemistry, pharmacy, or a related field, with at least three years of professional experience in analytical development of drug substances or drug products for small molecules
- In-depth knowledge of chemistry, including synthesis, purification, and characterization
- Expertise in key analytical techniques such as High-Performance Liquid Chromatography (HPLC), Ultra-Performance Liquid Chromatography (UPLC)
- Proven experience in developing and validating ICH-compliant analytical methods
