

Chemicals Management (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozente: 100%

Beschreibung

As a first-tier supplier to our renowned business partner, Roche Diagnostics in Rotkreuz, we are immediately seeking a motivated and dedicated **Chemicals Management** for a temporary assignment of one year with the possibility of extension

The Assay Development team is responsible for the development of molecular diagnostic and screening tests based on PCR technology in the areas of infectious diseases, genomics, and oncology, from early feasibility to commercial launch.

Tasks

- Ordering chemicals & drugs for PCR AD
- Chemical inventory management
- Chemical safety responsible
- Chemical room responsible
- Chemical waste management: empty bins, expired materials
- Chemical training responsible (e.g. chemical spill trainings)
- Maintain a chemical storage concept (Lagerkonzept) in AD
- Collaborate with stakeholders to shape, test, and continuously improve new digital chemical inventory solutions, ensuring seamless integration with lab workflows and adherence to safety standards
- Collaboration with stakeholders within the department (e.g. Development Project Teams) and outside of the department (e.g. Site SHE, RnD Services, Site Services, Site Logistics, Procurement, Service technicians, Medicals, etc...)
- Responsible for a small chemical support team (2-3 people) and involved in hiring activities of new team members, onboarding activities and development of chemical team members, in collaboration with the AD People Leaders
- Audit support
- Proactively Identify areas for lab workflow improvements in the biosafety level 2 laboratories of Assay Development and drive the implementation in the function as Lab Workflow Lead in collaboration with department internal and external stakeholders

Must Haves

- Graduate as Biomedical Analyst Scientist (BMA HF) or apprenticeship as Lab Technician (Biology, Medical Diagnostics, Chemistry) or at least Bachelor or Master degree in Life Sciences / Pharmaceutical science with practical experience from the Lab (no PhD graduates)
- Ideally 2+ years of lab experience
