Customer Logistics Manager (m/f/d)

Temporär Jobregion: Kaiseraugst Stellenprozente: 100%

Beschreibung

As a first-tier supplier to our renowned business partner F. Hoffmann-La Roche Ltd. in Kaiseraugst, we are currently looking for a motivated and dedicated **Customer Logistics Manager** for a temporary assignment of 12 months.

The Global Supply Chain Operations Organization centrally manages supply, inventory, and replenishment planning for drug products, connecting markets directly to the global manufacturing network. Within this end-to-end framework, the Customer Logistics Manager is responsible for trading and delivering semi-finished (SEMP) and finished products (FG) to third-party customer markets worldwide. This role ensures high service levels, right-first-time order fulfillment, and full compliance for product and document supply. Key responsibilities include coordinating upstream replenishment, maintaining master data and supply chain setups, optimizing the cost-to-serve model, and leveraging data analytics and technology to drive efficiency and meet service goals in collaboration with local and global stakeholders.

Tasks & Responsibilities

- You ensure global market supply to third party customers on time in full at the right quality and cost
- You partner with different interfaces for upstream replenishment coordination from central packaging
- You continuously improve the cost-to-serve-model (incl. KPI metrics).
- You leverage data for decision making by using e.g. analytics, simulation tools and customer insights
- You drive efficiency through identifying value-adding and productivity-enhancing opportunities through technology and data
- You collaborate with different functions in the markets to understand the changes which may impact supply to the country and align with planning functions to adjust the Replenishment Plan
- You ensure appropriate supply chain set-up (incl. e.g. master data)

Must Haves

- Education: Bachelor’s degree in Supply Chain Management, Logistics, Business, or a related field (or equivalent specialized training).
- Minimum 5 years of professional experience in Supply Chain Management and Operations within the pharmaceutical industry.
- SAP, Microsoft Office, and familiar with AI-driven supply chain tools/analytics.
- Professional fluency in English (written and spoken); German is a plus.
