

Global Clinical Distribution Lead (m/f/d)

Temporär Jobregion: Kaiseraugst Stellenprozente: 100%

Beschreibung

Als First-Tier-Supplier unseres renommierten Geschäftspartners, F. Hoffmann-La Roche Ltd. in Basel und Kaiseraugst, suchen wir per sofort einen motivierten und engagierten **Global Clinical Distribution Lead** einen temporären Einsatz von 1 Jahr, mit Option auf Verlängerung.

Roche is a global pioneer in pharmaceuticals and diagnostics, focused on advancing science to improve people's lives. As the world's largest biotech company and a global leader in in-vitro diagnostics, Roche is committed to driving innovation and delivering personalized healthcare. We thrive on a culture of intellectual curiosity and diversity, where every individual is empowered to make a significant impact on patients' lives worldwide. By joining Roche, you become part of a community dedicated to excellence, sustainability, and the pursuit of medical breakthroughs that redefine the future of medicine.

The Global Clinical Supply Chain Organization's objective is to cost-effectively ensure the right product is in the right place at the right time every time, such that no patient will go without treatment and no clinical trial will be delayed. Our vision is to enable an adaptive Supply Chain delivering innovative and sustainable clinical supply solutions anytime, anywhere, to anyone. As a part of our team, you will directly contribute to the success of Roche's robust and diverse pipeline of biopharmaceuticals, as our team is accountable for the Clinical Supply of more than 100 molecules in 600+ clinical trials across seven disease areas.

The Global Clinical Distribution Team members have in-depth knowledge and understanding of clinical trial management, supply chain logistics, ERP systems and manage end-to-end distribution activities of a clinical study portfolio of varying complexity. Our team members are globally distributed across Kaiseraugst, Switzerland, South San Francisco, U.S. and Mississauga (Greater Toronto Area), Canada. As a member of the Study Management Chapter, you will manage the end-to-end distribution activities for a portfolio of clinical trials of varying complexity. Your responsibility includes deploying clinical inventory throughout the global distribution network consisting of 24 depots worldwide from the point of technical release through importation and delivery of the clinical drug to depots and clinical sites. The key responsibilities mentioned below highlight some focus areas; the actual role-based working setup may vary.

Tasks & Responsibilities:

- As a Global Clinical Distribution Lead, you will play a variety of roles according to your experience, knowledge, and general business/team requirements, such as:
