

Java Developer (m/f/d)

Temporär Jobregion: Basel Stellenprozent: 100%

Beschreibung

For our international partner based in Basel/Kaiseraugst, we are looking for a qualified and motivated **Java Developer** for a temporary contract until the end of 2021. Extension is planned but needs to be approved first.

Background

We are looking for a Java Expert Developer to further develop the EDISON (Enlightened Data Integration Solution) Platform, which addresses the root causes of low data quality by harmonizing, automating and integrating the process in which clinical biomarker data is acquired and integrated. The successful candidate will be responsible for the backend development of the platform.

Tasks & Responsibilities:

- Responsible for the backend development of the EDISON platform
- Knowledgeable of Test-Driven Development and agile methodologies.
- Ensure scalability of the platform to a cloud enterprise solution
- Proactively collaborate with a team comprising of informatics experts, software engineers, and life science experts

Must Haves:

- At least M.Sc in Computer Science or similar discipline
- Professional Java software development experience
- Has demonstrated strong working knowledge of best coding practices (software craftsmanship, clean code, TDD/BDD/DDD, pair-programming)
- Deep experience with SpringBoot, SpringCloud & MongoDB
- Experience with continuous integration/delivery ecosystems (Jira, Git, Jenkins)
- Strong analytical skills combined with conceptual thinking and structured working style
- Ability to work in a multicultural geographically distributed team
- Strong communication skills
- Fluent in English
