

Java Script Frontend Developer (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozenzte: 100%

Beschreibung

For our international partner, **Roche Diagnostics International Ltd.** based in Rotkreuz, we are looking for a qualified and motivated **Java Script Frontend Developer** for a one year contract - extension is possible.

The mission of the RMD Calculations Team is to help the customer getting from raw data to the right results. This requires close collaboration with the domain specialists of the projects. Furthermore, we are establishing a sustainable and generic calculation framework that is to be used within Roche.

The Calculations Team provides:

- Participation in technical requirement definition
- Specification and development of project-specific Calculation Solutions
- Integration calculation framework within the projects and devices
- Maintenance and support
- Support for verification and validation by providing the required documentation for all the projects
- Responsible for the timelines/scope (agreed with the consumer projects).

Tasks

- Design/engineering user-interface / dashboards for ML/DS projects
- Implementation of dashboards
- Participate in architecture and design discussions to come up with the most effective technical solution
- Help design the backend interface

Must Haves

- Min. 5+ years of hands-on software development experience in JavaScript with a modern MVC framework (e.g. Angular, React, Vue, etc.)
- Ability to understand and design user-friendly interfaces of software (UX engineering)
- Knowledge of R Shiny, Dash, Plotly or Tableau
