

MSAT Product and Process Science Engineer 80-100% (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozent: 80 - 100%

Beschreibung

As a first-tier supplier to our renowned business partner **Roche Diagnostics in Rotkreuz**, we are currently looking for a motivated and dedicated **MSAT Product and Process Science Engineer** for a temporary assignment of 12 months, with high probability of extension.

The Manufacturing Science & Technology Team (MSAT) is working in an agile Framework. We are shaping and continuously improving the manufacturing of highly integrated sensors and cartridges (S&C). Our service scope starts with input to first concept ideas, continues through a fast and effective design transfer from development into routine manufacturing and finally ensures a robust and sustainable product care phase over the entire lifecycle.

Organized in Sub-Networks, Squads are the heart of our agile Organization, supported by competencies organized in chapters. This fluid structure enables us to adapt quickly to changing priorities and support the dynamic needs within the S&C organization. We foster agile ways of working and build trust as strategic business partners, actively working to break down silos by driving partnership and inclusive collaboration inside and outside of Operations.

Tasks & Responsibilities

- Taking responsibility for regular product care activities within the Squad. Like handling of non-conformity notifications, leading investigations and root cause analysis, coordinating corrective actions in the manufacturing process, implementing changes to the process
- Working according to internal processes defined by GxP-regulated environment
- Monitoring production data and analyzing key production performance indicators
- Driving Continuous Improvement initiations within the sensor production process
- Supporting production operators as an SME on the ramp up of newly established production line
- Plan and execute experiments (DoEs) in laboratory and production environment for investigation and product improvements
- Coordination and collaboration with internal and external partner

Must-Haves

- University Degree in (Electro-, Analytical- or Technical) Chemistry, (Chemical-, Process- or Manufacturing) Engineering or related field
- First experience in a highly regulated production environment
- First experience GxP
- Adaptive and autonomous team player with the ability for self-reflection
- Open and solution-oriented mindset that actively fosters collaboration
- Interest in agile methodologies and project management techniques
- Thinking strategically and setting concrete objectives with an entrepreneurial mindset
- Experience with statistical analysis / data science
- Ability to apply a programming language (e.g., python or R-Studio) in a practical setting
- Fluent in English, German at least B2 level

Nice-To-Haves

- Professional experience in a highly regulated industry, ideally in the pharmaceutical or medical sector
- Knowledge of Six sigma and/or lean methodology
- Previous experience in an agile framework (Agile Team, Scrum, Kanban, etc.) and/or project management
- Knowledge of chemical lab processes or manufacturing (screen printing, dispensing) processes
- Database handling (SQL, Snowflake) and experience with software projects

Benefits

- Become part of one of the most prestigious pharmaceutical companies and actively shape the future of healthcare
- Experience a work culture that promotes diversity and inclusion and where all employees feel valued
- Work on a state-of-the-art campus featuring green spaces, meeting areas, and an inspiring atmosphere
- Work with modern and up-to-date tools in an innovative work environment
- Start with a professional onboarding process and a thorough introduction to your new role during the Welcome Days
- Benefit from financial support for your professional development plans
- Enjoy a selection of high-quality meals in modern staff restaurants
- As part of a sustainable mobility concept, on-site parking spaces are available to you (subject to eligibility criteria)
- Take advantage of unbeatable, year-round discounts at renowned retailers and over 200 top brands
- Benefit from fleet discounts when purchasing new cars or receive constant fuel discounts with our fuel card
