Network Engineer 80-100% (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozente: 80 - 100%

Beschreibung

As a first-tier supplier to our renowned business partner **Roche Diagnostics in Rotkreuz**, we are currently looking for a motivated and dedicated **Network Engineer** for a temporary assignment of 1 year, with high probability of extension.

Tasks & Responsibilities

- You support network infrastructure needs in Basel and Kaiseraugst Campuses, covering the corporate campus network, manufacturing areas, and computer rooms.
- You lead end-to-end network delivery: handle business needs analysis, solution design (aligned with our engineering standards), planning, implementation (procurement management, coordinate equipment installation, configuration, commissioning), documentation, and handoff to Operations.
- You Oversee physical network environments and coordinate external installation contractors and service providers across campus facilities.
- You manage the full lifecycle of the installed network infrastructure and provide hands-on local support for incident resolution.

Must Haves

- Education/Degree: Technical apprenticeship in IT with focus on Telecom or Bachelor degree within relevant fields.
- 5-6 years experience in the design, configuration, implementation, maintenance, and troubleshooting of LAN/WLAN network infrastructure across campus and data center environments.
- Hands-on expertise with Cisco and Arista switching, routing, and wireless solutions.
- Strong routing and switching protocol knowledge (BGP, EVPN, VXLAN, OSPF, STP, etc.).
- Physical infrastructure management: MDFs, IDFs, cabling, PDUs, and rack power/cooling considerations.
- Experience in working with external vendors and service providers.
- Soft Skills: Proactive, self-motivated, strong stakeholder management, and communication skills to collaborate with internal clients, internal cross-functional teams (Connectivity, Security, Facilities, etc.), and partners.
- Languages: Fluency in German and English.
