

Network Supply Manager (m/f/d)

Temporär Jobregion: Basel Stellenprozente: 100%

Beschreibung

As a first-tier supplier to our renowned business partner **F. Hoffmann-La Roche Ltd. in Basel**, we are currently looking for a motivated and dedicated **Network Supply Manager** for a temporary assignment of 12 months, with high probability of extension.

The Global Supply Chain Operations Organization seamlessly connects markets to the global manufacturing network by centrally managing supply, inventory, and replenishment planning for drug products and drug substances. The organization orchestrates value streams between sites and affiliates by balancing demand and supply equations across markets, products, manufacturing assets, and inventory points. It ensures right-first-time order fulfillment and delivery of drug products everywhere and anytime across the global network. The Network Supply Manager owns the supply plan for up to three years for externally manufactured Drug Substance (DS) and Drug Product (DP) and ensures the supply of commercial DS and DP within the entire network. This includes the management of inventory across different nodes within the internal and external manufacturing network and the enablement of on-time in-full order fulfillment and supply of products and required documents worldwide. The Network Supply Manager represents Supply Chain in Joint Management Team (JMT) meetings with Contract Manufacturing Organizations (CMO) and supports performance reviews and root cause analyses. Moreover, the Network Supply Manager defines improvements to ensure reliable supply, meeting or exceeding performance targets and network requirements. Roche is an agile organization with distributed authority and a purpose-driven culture built on trust and collaboration, where people are inspired to co-create solutions and develop the capabilities required to deliver on the mission.

Tasks & Responsibilities

- Own an executable zero to three years supply plan enabling production and scheduling of the assigned external asset(s) and/or product(s).
- Manage inventory within the assigned internal and external manufacturing network to effectively ensure supply, avoid obsolescence, and enable proactive inventory allowance.
- Act as the Supply Chain partner for Contract Manufacturing Organizations, maintaining a robust, productive, and constructive relationship.
- Perform the order fulfillment lifecycle from intermediates to drug products.
- Ensure products are delivered in quality, on time, and in a compliant manner.
