

Product Safety Specialist - EH&S Data Migration (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozent: 100%

Beschreibung

As a first-tier supplier to our renowned business partner **Roche in Rotkreuz or Basel**, we are currently looking for a motivated and dedicated **Product Safety Specialist - EH&S Data Migration** for a temporary assignment of 7 months, with high probability of extension.

Tasks & Responsibilities

- Support a Global Data Migration Project to migrate large sets of Chemical Legislation Data from the current SAP EHSM Solution to the new Solution in EHSM S4 HANA.
- Drive the modernization of our chemical data model by translating and transforming chemical data structures from legacy systems into S4/HANA-compatible formats to ensure seamless data migration
- Assure global environmental regulatory compliance and sustainability for our Diagnostic Instruments, Consumables, and Packaging. This encompasses adherence to a broad spectrum of global regulations, including e.g. REACH, RoHS, California Proposition 65, TSCA, POP, Conflict Minerals, and the Packaging Directive.
- Ensure data accuracy and integrity by preparing load files and performing post-load verification checks applying automation and mass load tools
- Drive operational efficiency by simplifying processes, emphasizing the automation of manual tasks and promoting automated report generation.
- Actively contribute to project meetings by offering valuable insights, updates, and subject-matter expertise
- Utilize project management tools to monitor project health, ensure timely execution, and maintain momentum across key milestones.

Must Haves

- A degree in Engineering, Natural Sciences, Material Sciences, Data/Information Sciences, or a related field, fundamentally combined with a strong focus on chemistry and data management
- (First) Experience managing complex data in the (medical) device, electronics, automotive, aerospace, or precision/high-tech manufacturing industry in the product safety environment (e.g. EH&S data management, material declaration, product stewardship)
- Relevant knowledge of environmental regulatory frameworks, including global environmental regulations such as REACH, RoHS, California Proposition 65, TSCA, POP, Conflict Minerals, and the Packaging Directive. A good understanding of the chemical
