

Project Leader External Manufacturing 90-100% (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozent: 90 - 100%

Beschreibung

As a first-tier supplier to our renowned business partner **Roche Diagnostics in Rotkreuz**, we are currently looking for a motivated and dedicated **Project Leader External Manufacturing** for a temporary assignment of 1 year, with high probability of extension.

External Manufacturing is the competence center for parts and products in the diagnostic workflow, manufactured by external suppliers. This includes the development of new products, product care activities, the assurance of supply as well as the supplier selection and maintenance in close collaboration with Procurement.

As a Project Lead in External Manufacturing, you drive key projects for business value and patient benefit focused on the design and industrialization of Consumables. You create an environment where you and your project team thrive, grow, and collaborate with purpose, enabling the delivery of high-quality, innovative products that ultimately benefit patients.

In this role, you, together with your project team, deliver new product design, designing and building up respective manufacturing lines at external manufacturing sites including the overview from raw material sources until final packaging. You manage and communicate project progress towards stakeholder and balance scope, timelines and budget.

You champion a culture of continuous improvement, working cross-functionally to deliver strong results.

Tasks & Responsibilities

- Management of one or more product development projects
- Ensures delivery and definition of project deliveries including product requirements and specifications in alignment with internal and external stakeholders & suppliers
- Identification, mitigation and impact analysis of project risks, issues and management of their mitigations
- Planning and controlling the project budget and resources
- Monitor the progress of the project against the project plan and ensure the timely delivery of work packages and their quality, also with external partners
- Leading and managing the project team with matrix organization
- Strong collaboration with internal stakeholders & supplier

Must-Haves

- M.Sc. or B.Sc. degree in Engineering, Natural Science or related
