

Quality Manager - IMP Distribution (m/f/d)

Temporär Jobregion: Basel Stellenprozent: 100%

Beschreibung

As a first-tier supplier to our renowned business partner F. Hoffmann-La Roche Ltd. in Basel and Kaiseraugst, we are currently looking for a motivated and dedicated **Quality Manager (IMP Distribution)** for a temporary assignment of 6 months.

Tasks & Responsibilities

- **Regulatory Compliance:** Act as the appointed Delegate of the Swiss Responsible Person (FvP), providing necessary final Quality decision-making
- **Global Oversight:** Maintain Global QA oversight for the entire Roche IMP Distribution Network and its business counterpart PTDS-L.
- **Lead the Deviation Management process** by performing product quality impact assessments. Provide crucial Quality oversight by reviewing and assessing final evaluations and statements from third parties, ensuring consistency with regulatory standards, and checking if proposed Corrective and Preventive Actions (CAPA) are appropriate.
- **System Owner:** Manage the full lifecycle of quality documentation and Change Records, including establishing, reviewing, and approving critical documents and changes for both internal procedures and external business documents (PTDS-L).
- **Inspection Management:** Actively drive and support all GxP inspections and audits.
- **Quality Decision-Making:** Manage Temperature Excursion Management for clinical trials, including performing assessments and managing Expert Statements/Opinions.
- **Support clinical studies** by reviewing and approving IMP Supply & Release Flowcharts, Transfer requests, and Expert Opinions.
- **Establish and approve Master Quality Agreements and Quality Agreements.**
- **Manage Complaint Management** for clinical trials within the Roche network.
- **Support quality-related and business-driven projects** within the IMP Distribution network.
- **Drive continuous improvement activities**
- **Professional Discipline:** Assure GMP/GDP compliance, adhere to Good Documentation Practices (GDP), and ensure training compliance with PQS documents

Must Haves

- A Bachelor's degree in a relevant scientific or technical field (e.g.,
