

Requirement engineer Hardware / Software (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozent: 100%

Beschreibung

As a first-tier supplier to our renowned business partner **Roche Diagnostics in Rotkreuz**, we are currently looking for a motivated and dedicated **Requirement engineer Hardware / Software** for a temporary assignment of 12 months, with high probability of extension.

The Sub-Chapter Instrument Design Verification is part of R&D Near Patient Care, which is accountable for research and development activities on all systems of the Near Patient Care portfolio from Roche Diagnostics.

We are looking for someone with a technical background, ideally in system engineering, software engineering or medical engineering who brings experience in software and hardware requirement engineering - and eventually testing - for diagnostic instruments.

Tasks & Responsibilities

- Definition of technical requirements for diagnostic instruments based on business and customer inputs, risk ratings and context according to internal Roche guidelines
- Knowledge in definition of requirements using EARS (Easy Approach to Requirements Syntax)
- Contribution to the development of requirement engineering concepts and strategies for software and hardware on different levels
- Review of requirements and specifications
- Collaboration within the interdisciplinary development team
- Status reporting to respective project or product leader

Must-Haves

- 5+ years of experience working across full product development lifecycles with focus on requirements engineering
- Background in regulated environments, ideally within IVD or medical device development
- Strong requirements engineering experience, including ALM tools and requirement breakdown/structuring
- Certifications such as CPRE/IREB, CCBA/IIBA, or INCOSE are advantageous
- Experience with requirement analysis, test case creation, test execution, and defect lifecycle management
- Understanding of the V-model
- Strong analytical thinking, problem-solving, and ability to balance big-picture and detail-oriented work

Rotkreuz

- Experience moderating and collaborating with multidisciplinary stakeholders and teams
- Strong communication skills, autonomous working style, and pragmatic mindset
- Fluent English and German are required

Benefits

- Become part of one of the most prestigious pharmaceutical companies and actively shape the future of healthcare
- Experience a work culture that promotes diversity and inclusion and where all employees feel valued
- Work on a state-of-the-art campus featuring green spaces, meeting areas, and an inspiring atmosphere
- Work with modern and up-to-date tools in an innovative work environment
- Start with a professional onboarding process and a thorough introduction to your new role during the Welcome Days
- Benefit from financial support for your professional development plans
- Enjoy a selection of high-quality meals in modern staff restaurants
- As part of a sustainable mobility concept, on-site parking spaces are available to you (subject to eligibility criteria)
- Take advantage of unbeatable, year-round discounts at renowned retailers and over 200 top brands
- Benefit from fleet discounts when purchasing new cars or receive constant fuel discounts with our fuel card
