

Research Associate for in vivo Nonmalignant Hematology Research (m/f/d)

Temporär Jobregion: Basel Stellenprozente: 100%

Beschreibung

As a first-tier supplier to our renowned business partner F. Hoffmann-La Roche Ltd. in Basel, we are currently looking for a motivated and dedicated **Research Associate for in vivo Nonmalignant Hematology Research** for a temporary assignment of 12 months.

Tasks

- Design, execute, and analyze diverse in vivo experiments, including intravenous injections, blood and plasma collection, bleeding and thrombosis models, and related procedures
- Characterize efficacy and safety of novel gene therapy assets using molecular and biochemical assays (e.g., ELISA, thrombin generation assay, chromogenic assays) in murine and human samples
- Prepare, handle, and test patient-derived material (blood and plasma) in in vitro and ex vivo settings
- Perform data analysis and present results within the team
- Maintain thorough documentation and contribute to general lab organization, safety, and inventory management

Must Haves

- MSc or BSc in Life Sciences (e.g., molecular biology, pharmacology, immunology, coagulation) with at least 2-3 years hands-on animal study experience (No PhD accepted)
- Or, completed an apprenticeship as Research Associate ("Lehrabschluss") with at least 4-5 years of academic or industry experience
- Active LTK1 (FELASA or equivalent) certification
- Demonstrated hands-on experience with rodent work, including intravenous injections and blood collection
- Strong experience in experimental design and data analysis
- Ability to independently execute and manage in vivo studies from start to finish
- Fluency in English

Nice to Have

- Experience with animal surgery
- Knowledge or experience in coagulation and/or gene therapy
- Hands-on experience with molecular and biochemical assays (e.g.,
