

# Senior Cloud SW Developer / Solution Design Experience (m/f/d)

Temporär      Jobregion: Rotkreuz      Stellenprozente: 100%

## Beschreibung

For our international medical partner, **Roche Diagnostics Int Ltd** based in Rotkreuz, we are looking for a qualified and motivated **Senior Cloud SW Developer / Solution Design Experience** until the end of the year with option for extension.

As a Senior Cloud Software Developer you have cloud services implementation experience, ideally with serverless architectures in AWS.

As you also have experience with designing cloud-based solutions, you will be able to take responsibility for detailed solution designs for the security and privacy concepts in our cloud-based prototyping framework for data-driven applications in healthcare.

## Tasks

- Take over ownership
- Responsibility for the development of framework modules in the development team
- Be able to conduct tests on service and system level
- Closely collaborate with our lead architect and the other team members with creating detailed designs based on higher-level concepts, mostly in the area of data privacy and security
- Potentially support prototype application developers in configuring and using the services provided by the framework.

## Must Haves

- Minimum of 5 years (Senior level ) experience as a developer with implementation in AWS cloud
- Experience with implementation of advanced cloud security and/or data privacy concepts
- Solution design experience
- Expert knowledge / practical experience in Java
- High commitment, reflecting on current solution, bringing in own ideas
- Languages: English and/or German either one must be perfect
