

Senior UX Designer (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozenze: 100%

Beschreibung

For our international medical partner, **Roche Diagnostics Int Ltd** based in Rotkreuz, we are looking for a qualified and motivated **UX Designer** for a long term position.

As UX/UI Designer you have the opportunity to contribute to the transformation of user and customer experience in healthcare using your design and research expertise as well as your ability to share your know-how so that junior team members and the DIA UX team can grow and upskill with you.

Tasks

Be the voice of Roche users, customers and patients in every product conversation Support UX research along the project process to provide fact-based inputs (e.g. user interviews, desk research, surveys) Participate in workshops with the business and engineering teams to gather system-level information and to coordinate the design deliverables Translate user research and business requirements into state of the art user flows and design ideas.

- Design low/high fidelity mockups and interactive prototypes following industry standards and trends
- Apply with method style and components from the Roche Design System and contribute to its evolution
- Structure and run usability tests, analyze and present the outcome in the project team
- Present your design ideas and output to the design team, project stakeholders, DIA UX department and document the design activities following Roche internal regulatory process
- Contribute to DIA UX activities to establish UX and CX best practices in the Organization

Must Haves

- Bachelor in UX design, HCID, visual design, communication, social or technical science or similar
- Well-versed in how to research user behavior, derive the most powerful insights from all forms of research, and prototype the creative solutions your actionable insights inspire
