

Snowflake Cloud Engineer (m/f/d)

Fest - Vollzeit Jobregion: Basel Stellenprozente: 100%

Beschreibung

Data is the core of modern businesses – and with Snowflake, we take it to the next level. For our client in the Basel area, we are looking for an expert who works with large datasets in a modern cloud environment and develops smart solutions.

Your Mission:

- Develop and optimize high-performance, scalable data solutions with Snowflake.
- Write efficient SQL queries and develop data models that create real value.
- Automate and optimize ETL/ELT processes for smooth data flows.
- Work closely with data scientists, developers, and business teams to drive data-driven innovations.
- Integrate Snowflake with other platforms such as ServiceNow.

What You Bring:

- Several years of experience with Snowflake on cloud data platforms
- Strong SQL skills – you know how to write and optimize high-performance queries
- Programming knowledge in Python or another language such as Java, C++, or Scala
- Experience with data warehousing, data modeling, and cloud technologies
- Know-how in performance tuning and optimizing data processes
- Experience with AWS or other cloud environments is a plus
- Strong communication skills and a desire to work in a dynamic team
- Very good English skills, German skills are a plus

Why You Should Apply:

- Cutting-edge technologies and an innovative work environment
- Large datasets, exciting challenges, and plenty of room for your ideas
- Flexible working hours and the possibility to work remotely
- Opportunities for further education and career prospects in a growing company
- A motivated team working together on the future of data

Wir wertschätzen Vielfalt und begrüßen daher alle Bewerbungen – unabhängig von Geschlecht, sozialer Herkunft, Religion, Alter und Identität. Zur leichteren Lesbarkeit und besseren Verständlichkeit verwenden wir nur eine Gender-Form. Selbstverständlich sind im jeweiligen Kontext alle Genderformen gleichermassen gemeint.
