

Test Manager (m/f/d)

Temporär Jobregion: Rotkreuz Stellenprozenze: 100%

Beschreibung

For our international partner, Roche Diagnostics International Ltd. based in Rotkreuz, we are looking for a qualified and motivated **Test Manager** for 12 months with option for extension.

Roche Diagnostics is a division of Roche, a market leader in the development and integration of solutions which use leading edge technology for the in-vitro diagnostics and e-healthcare sectors and on a global scale. Since our creation in 1896 we have not stopped growing and expanding while at the same time transforming the healthcare sector and caring for people worldwide.

The digitalization of the healthcare sector opened up a range of new possibilities by which we can improve the quality of medical attention, meaning that the services are ever more accessible and have an enhanced impact in society.

In Roche we continuously develop our extensive portfolio of digital solutions aimed at doctors and patients.

Tasks

- Manage the overall testing deliverable, by ensuring correct test planning and estimation, driving test automation
- Proactively identifying and highlighting risks to various stakeholders suggesting mitigation plans to ensure timely delivery of high quality output
- Define the testing strategy which would be completely integrated within the development cycle and drive an iterative E2E testing methodology aligning with the agile adoption strategy
- Drive in sprint testing automation ensuring minimum manual testing
- Implement a continuous testing and continuous regression model completely integrate
- Work closely with the vendor resources to ensure they are cross trained across applications and have a complete understanding of the various interactions within the eco system for a given End to End flow
- Coach and guide the vendor testing resources for their delivery, productivity and overall quality
- Coordinate and build a collaborative working relationship with the dev teams to ensure timely delivery of the program
